

## RIOTS AT MOSCOW

Belated Telegram Tells of Violent Anti-German Disorders.

Hoodlums Turn Mild Demonstration Into Outrage.

MOB DRUNK ON STOLEN LIQUOR

Shops of Many Russians Suffer in Onslaught.

Troops Reinforcing Police Finally Gain Control.

Moscow, June 11.—(By mail to Petrograd, June 14—via London).—Moscow for two days has been street rioting and anti-German demonstrations of a serious nature. The police have found it impossible to control the crowds and the people indulged their

desires for looting and destruction until they were tired out. The demonstrations started because of an outbreak of illness among some men employed in a factory. This led to the belief among some of the lower classes that German sympathizers had poisoned the drinking water. In the beginning there was a demonstration, but the crowd developed rapidly into a mob that could not be controlled.

**Mob Loots and Destroys.** All day Thursday and until Friday morning the crowd looted and destroyed, and certain Russian workmen demanded the dismissal of the employees at the factory in question. This was refused, whereupon men began to gather carrying Russian flags and pictures of the emperor and singing the national anthem. They moved in the direction of central square of Moscow, their numbers swelling every moment. They were joined by the unemployed and a gathering of hoodlums.

Here it was that the destruction began. German shops were selected in the beginning, but later the operations of the mob extended to every establishment or store that bore other than a Russian name. Consequently many places actually owned by Russians were wrecked.

Thursday night there were fires in various parts of Moscow. The mob became drunk on the spirits it looted from the liquor stores and its fury increased during the night. The police endeavored to maintain at least a semblance of order, but they had been surprised by the outbreak and found it impossible to exert any real control. Finally the exhausted rioters quit of their own volition.

Friday morning an attempt was made to continue the disorders, but by that time the police had been reinforced by troops and shots were fired over the heads of the mob to intimidate them. By this method a resumption of the disorders was prevented. There were several casualties.

## KANSAS SHERIFF PUMPS BULLETS IN K. C. STREETS

Pedestrians Flee for Shelter in Exciting Man Chase.

Prisoners Slip Shackles and Break for Liberty.

PUNCTURED NEGRO RACES ON

Runs Into Arms of Detective and Is Borne Down.

Black Carries Two Leadens Missiles to Lansing.

KANSAS CITY, Mo., June 14.—Scores of shoppers in the business district today hastily sought shelter in buildings, alleyways and behind the telephone poles, while a Kansas sheriff pursued a prisoner who had escaped, firing a revolver at his fleeing charge and finally capturing him. The prisoner will carry two bullets from the officer's revolver with him to the state prison at Lansing, Kan., whither he was bound.

**Two Prisoners Bold.** Ralph Martin, sheriff of Cherokee county, Kansas, and his deputy, Clay Lobb, with four prisoners, were waiting at Ninth and Main streets today to take a trolley car for the state prison at Lansing. W. E. Norton, a negro under sentence for highway robbery, and Samuel Richmond, white, en route to Lansing convicted of robbery, suddenly slipped off hand cuffs that bound them together and ran in opposite directions.

Sheriff Martin immediately drew a revolver and pursued the negro, firing his weapon. Lobb chained the remaining men to a water plug and ran after Richmond. Martin pursued his charge through streets and alleys, firing as he ran. Two bullets struck the negro but did not stop him.

**Both Fugitives Captured.** Finally a Kansas City detective who heard the shooting saw the negro and grappled with him. Meanwhile Deputy Lobb had captured Richmond a block away.

The sheriff said Norton had tried to escape while coming from Columbus, Kan., on a train, but the sheriff caught him as he slipped his hands out of the binding steel. The negro found a small piece of wire and used it to pick the locks that bound him to Richmond.

**MULROY MUST GO**

State Hotel Inspector Fails to Make Ends Meet.

The Governor Thinks a Republican Might Do Better.

Miles Mulroy, Democrat, deposed hotel inspector, has a plan whereby he might hold his job and make receipts and expenses balance. He explained his theory in the state house this morning. Almost every one who heard the plan admitted it was quite logical—that is most every one except Governor Capper, who recently suggested to Mulroy that Tuesday of this week would be a good time to close his office and turn in the keys.

A few days ago the governor wrote a letter to Mulroy stating that since the expenses of his department were something like a thousand dollars more than the revenue, it would be much more economical to suspend business. Mulroy really likes his work. At times his salary has been uncertain, since it most come from inspection fees. Last winter, however, the legislature made a deficiency appropriation for the department and the world looked brighter to the state inspector. Then, just as Mulroy was planning a summer vacation and a pleasant season under Republican rule, Governor Capper wrote the letter advising the hotel inspector that his services really were not needed.

"I am sure the department could be made to pay expenses," Mulroy said with a sigh. He had just come from the state auditor's office with a bunch of expense sheets and he was reminded that this would be about his last official act.

"The state really ought to keep the work going," Mulroy continued. "Of course it has been losing money, but by getting an automobile I could make ten or twelve towns a day instead of from one to three by rail. That would cut down expenses and make the department pay its way. I intend to talk to the governor about it."

At noon Mulroy had not talked to the governor and the governor expressed the belief that he had no idea of changing his former ruling that Mulroy's services in the hotel were badly needed. As for the automobile, W. E. Davis, state auditor, did not say a desire to violate a sacred rule and permit the use of department funds for buying motor cars. The fever is contagious and Davis is trying to confine the epidemic.

In his office, Governor Capper expressed the belief that the work of the hotel inspection department might resume—some time after Mulroy goes home. Possibly next fall, the governor thought, the work may be taken up again. But the name on the hotel inspector's door plate won't be that of Miles Mulroy. In fact, there is no secret about it.

Next hotel inspector will be a Republican.

## LOOKING IT OVER

Greek Turns Handsprings on Top of a Building.

Topekan, Believed Insane, Said He Would Buy It.

Off ag'in. On ag'in. Gone ag'in.

Louis Pitros, Greek, who was discharged by a commission of alienists who failed to find evidence of insanity last Saturday, was picked up Sunday by the police and released only to be ordered into the probate court again today on account of his remarkable behavior.

Pitros took possession of the roof of the business building at 220 Kansas avenue this morning and held it against all comers, with a razor. He disported himself by turning somersaults and by walking perilously close to the edge. When Deputy Sheriff J. J. Holman asked him what he was up there for, Pitros declared he was thinking of buying the building and was looking it over.

This afternoon members of the sheriff's force were trying to figure out some way of luring the Greek away from the razor long enough to get him into safe keeping without a fight.

Today members of the local Greek colony appeared in the probate court with naturalization papers belonging to Pitros, showing that the man has acquired American citizenship.

## DELAY GOLF PLAY.

Recent Rains Hold Up Business of Shawnee Club.

The recent rains have delayed work on the Highland Park golf course, but the members of the Shawnee Golf club should be playing by the end of the week, providing weather conditions are better. The date of the formal opening will be announced soon. On that occasion a tournament will be made by the club. The club has 294 members who have never swung a golf club. Members of the Country club will be invited to attend.

The executive committee of the club was authorized at a meeting at the Commercial club quarters today to sign a lease for the new Country Club Holding company which will assure golf for fifteen years on the Highland park links until the Country club decides to take over the grounds and on the present Country club grounds after that time.

The committee was also given power to erect a cottage at the corner of Eagle and Maryland avenues for one year to serve as a club house. The cottage is across the street from the Fred Iles home.

Robert Fulton is superintending the laying out of a nine-hole course on the 120-acre tract.
